PROFESSIONAL SUMMARY

Full Stack Software Engineer with 2+ years at TCS, building scalable web apps end-to-end using ReactJS, Python (Django/Flask/FastAPI), and SQL. Proven ability to independently own features from design to deployment, reduce system bottlenecks, and deliver within timelines. 600+ DSA problems solved; AWS Certified Cloud Practitioner.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL

Front-end Tech: ReactJS, ReduxToolkit, jQuery, HTML, CSS, Bootstrap, Ant Design, AG Grid

Back-end Tech: Django, Flask, FastAPI, RESTful APIs

Databases: MySQL, MS SQL Server, Oracle DB, MongoDB

Cloud and DevOps: Red Hat OpenShift (Familiar: AWS, GCP)

Tools: GitHub, GitLab, Bitbucket, GitHub Copilot, JupyterNotebook, Tableau, ElasticSearch, Swagger, etc

EXPERIENCE

Tata Consultancy Services, New Delhi

December 2023 – Present

Systems Engineer | Full Stack Developer (Client: Infineon Technologies)

- Developed and maintained full-stack components across 8+ projects for the Client, delivering frontend and backend solutions within agile sprint timelines while ensuring seamless user experience.
- Built and maintained 20+ RESTful API endpoints across Django, Flask, and FastAPI, optimizing backend logic and significantly improving application response efficiency.
- Engineered critical business features including a dynamic drawer and multipage wizard form with full database connectivity and validations using React Hook Forms, Formik, and Ant Design — used by 1000+ users across business workflows.
- Streamlined CRUD operations using Formik and TanStack Table, ensuring efficient data management, cleaner state handling, and reduced code redundancy across multiple modules.
- Achieved 10% reduction in page load time by implementing Flask caching, DB connection threading, and session/local storage strategies, reducing unnecessary API calls.
- Automated manual data workflows including Excel population, CSV processing, cron job scripts, and API-to-JSON data pipelines using Python — reducing processing time from 1 hour to under 10 minutes.
- Managed end-to-end deployment and orchestration of all production applications on Red Hat OpenShift, handling pod management, resource quotas, terminal debugging, and version control via Bitbucket.
- Tech Used:** ReactJS, Javascript, jQuery, Django, Flask, FastAPI, Oracle DB, MS SQL Server, Python, HTML, CSS, Bootstrap, Ant Design, Red Hat OpenShift, Tableau, JupyterNotebook, ElasticSearch, Swagger, etc.

PROJECTS

MicroBlog — Social Blogging App | [Project Link](#) | [GitHub Link](#)

May 2025 - June 2025

- Built following Miguel Grinberg's Flask Mega-Tutorial, a production-grade Social Blogging platform
- Implemented user authentication with secure password hashing, login/logout, profile pages, and Gravatar avatars.
- Implemented follower/following system with paginated post feeds for personalized timelines.
- Developed real-time private messaging between users with instant notifications using AJAX-powered dynamic updates.
- Integrated multilingual support (I18n/L10n) using Flask-Babel with lazy translation and API-based post translation.
- Structured the application using Flask Blueprints for modular, scalable architecture with clean separation of concerns.
- Implemented background job processing and RESTful API endpoints for extended platform functionality.
- Tech Used:** Python, Flask, SQLAlchemy, Flask-Login, Flask-Mail, Flask-Babel, JWT, WTForms, Bootstrap, AJAX, Brevo SMTP, SQL

CERTIFICATIONS

- React Frontend Developer Certification | One Month Live Class Training by Edureka* | [Certificate Link](#) | Dec 2024
- AWS Certified Cloud Practitioner | Foundational Cloud Certification by AWS (CLF-C02)* | [Certificate Link](#) | Dec 2024

ACHIEVEMENTS

- Solved 600+ DSA problems on LeetCode and 1000+ problems across platforms including GFG and CodeChef.
- Secured 81st Rank in CodeChef Long Challenge Div.3 (Oct 2021) among 20,000+ participants.
- Completed 100+ hands-on labs and 15+ Quests on Google Cloud Qwiklabs covering core GCP services.

EDUCATION

University School of Information, Communication and Technology, GGSIPU

August 2019 – June 2023

Bachelor of Technology in Computer Science and Engineering – CGPA 8.8/10.0

Dwarka Sec 16C, Delhi

Rajikya Pratibha Vikas Vidyalaya

April 2018 – March 2019

Class XII CBSE Board – Percentage 86/100

Shalimar Bagh, Delhi
